

Workshop lead applications: <https://tinyurl.com/htn2022-workshop-app>

Applications are due on Friday July 8th at 11:59PM EST.

## Responsibilities

- Prepare and deliver a 30-90 minute presentation on a tech-related topic that you are passionate about
  - Examples include
    - Intro to Git
    - Tech for Social Good
    - Intro to Data Science in R
    - Supercharging Your Design Career
  - You can find more examples on our [YouTube Channel](#)
  - If you have any other ideas, please let us know in your application!
- Complete a [hackpack](#) for your workshop to provide information on what hackers can expect to learn and how they can follow up and continue learning following the workshop

## Requirements

- Be available to deliver your workshop on September 16th or 17th
- Be in Waterloo for the event weekend
  - Travel will be compensated within Ontario
- Be excited to teach hackers
- Be sufficiently knowledgeable or experienced in a tech-related topic to deliver a 30-90 minute presentation

## Benefits

- Help hackers learn something new
- Learn from and engage with a community of brilliant workshop leads
- Pay it forward with your knowledge for the next generation of hackers

## **FAQ**

### **What is Hack the North?**

Hack the North is Canada's biggest hackathon where 1000+ students of different backgrounds and skill levels come together from around the world to learn and build projects from scratch.

Our goal is to empower anyone and everyone to build something incredible with our resources like industry grade hardware and software, workshops, and mentors.

This year, Hack the North is looking to return to in-person at the University of Waterloo from **September 16-18, 2022**

### **What is a Workshop Lead?**

Workshop leads are passionate individuals who are excited to share their knowledge and teach skills that hackers can use to build their projects and develop their career in tech! They are essential in empowering students by teaching them new skills and showing them what the tech industry has to offer.

As a Workshop Lead, you will be responsible for preparing and hosting a 30-90 minute workshop on a topic of your choice at Hack the North 2022. You will be able to meet and connect with other workshop leads and strengthen your mentorship skills by teaching up to 1000 hackers.

We are looking for workshop leads who are experienced in what they do and are passionate about helping others. Having previous experience is a plus, but it's not necessary! All workshop leads will work closely with the Hack the North organizing team to produce a world-class workshop!

### **How will workshops work at in-person Hack the North?**

Workshop leads will be expected to attend Hack the North in person at the University of Waterloo. Each workshop will be assigned a time slot and a room to host the workshop in. Workshops will have access to any audio/video equipment available at our event and will coordinate any relevant presentation material with the Workshops Organizer.

Workshop leads are not required to stick around at the event outside of their designated workshop time but are welcome to experience everything else Hack the North has to offer.

**What does the selection process look like?**

After the application period closes, we'll let you know whether or not you have been selected for an interview; expect to hear back from us by the July 26th. If all goes well, we'll extend an offer and start working with you to create a world-class workshop!
