The Unspoken Steps to Accelerate your Technical Career: Hackpack

September 18, 2021 / 6:00 PM - 6:30 PM ET

Description

This is not the typical career advice workshop. Get ready to uncover secret github repos, how to pass the ATS resume scanner, learn the 14 common patterns in technical interviews and how to get an interview at companies such as Google, Tesla, Bolt, Salesforce, and more!
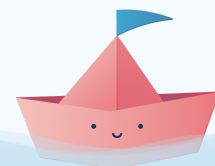

Learning Outcomes

- Use github repos effectively for job searching and exploratory learning
- Understand what an ATS likes and doesn't like
- Become more comfortable with coding interviews through 14 of the most common patterns
- Learn ways to reach out and secure an interview

Prerequisite Knowledge

- Hyped to learn, motivated and serious about advancing your early career
